Scholars will be notified by April 1, 2018

Friday & Saturday, April 27th & 28th
Stonewall Resort & Conference Center
wvgovernanceforum.org

Scholarships are available for community partners, outside of the health sector, to attend the 2018 WV Governance and Leadership Forum. The 2018 West Virginia Governance and Leadership Forum offers two distinct leadership development opportunities.

Governance 101 Workshop: Leading with Intention

Friday, April 27th 10:00 am - 3:45 pm

The difference between many organizations is vested in the way the board approaches its work. This workshop will explore best practices for intentional governance that are applicable not only to non-profit health care organizations, but also for non-profit organizations in recreation, foods, social service, civic, economic development and other sectors.

Scholarship recipients may attend the Governance 101: Workshop at no additional cost.

2018 WV Governance and Leadership Forum:

Working Toward a Wild, Wonderful and Healthy West Virginia

Friday, April 27th 5:00 pm Opening Reception and Dinner

Saturday, April 28th 8:00 am - 3:00 pm Forum continues

Linkages between Health and Economic Development. One of the primary factors influencing business location decisions is the health of the workforce. Health care professionals recognize that up to 60% of an individual's health begins outside of the clinical care setting, in the environments in which we live, work, study, and play. The 2018 Forum will focus on the importance of building cross-sector partnerships to address the social determinants of health in rural communities. Effective local partnerships set the stage for well-coordinated strategic planning that both maximizes resources and encourages creative approaches to persistent health concerns. Lifting West Virginia's health statistics will not be determined by state action alone, but rather the collective actions of West Virginia's community leaders. The Forum provides an opportunity for cross-sector community teams to learn more about how to impact the social determinants of health in their communities.

\$400 Scholarships available for community leaders, from outside of the health sector, to attend the Forum as part of a community team with local health care partners
